PRODUCTS

X-Stream Falls

X-STREAM FALLS

The effects of this unique combination of water, light and sound has quickly made the X-Stream Fall one of our most popular products. Used in combination with our popular line of color and dimmable white light X-Stream LED Light Drivers, the X-Stream Falls series creates a dramatic lighted sheer waterfall for your enjoyment. Radius cuts and Fall lengths up to 96" are available. Consult factory for more information.

X-Stream Celestial Star Floor

X-STREAM CELESTIAL FLOOR

Nothing can bring the magic of the stars to your pool, deck or steps like the X-Stream Celestial Floor kit. Used in combination with our popular line of color and dimmable white light X-Stream LED Light Drivers, they can be a stand alone feature or combined with other Savi Pool and Spa Lighting Systems.

X-Stream Bubbler

X-STREAM BUBBLER

SV Bubbler - includes 40 ft. of 100 strand End-Glow fiber optics. With a maximum depth of 9" below water, the SV-Bubbler provides "lighted bubbling" for water spouts in beach entries, sun shelves, steps and fountains. Used in combination with our popular line of color and dimmable white light X-Stream LED Light Drivers, they can be a stand alone feature or combined with other Savi Pool and Spa Lighting Systems.
